

Vocare-Ledlight Heavy duty round LED Bar 150x7cm, IP69K waterproof / 60W-9600 Lumen / 160Lm/W. Attachment via stainless steel 316 bracket. IK10 impact resistant.

Specifications

- IP Value: IP 69K waterproof (high pressure waterproof)
- Housing: IK10 impact resistant
- impact-resistant PMMA and stainless steel 316
- HACCP
- working temperature -45°C to +45°C
- Light color: 6000K other light colors on request.
- Lumen per watt 160lm/W
- Voltage AC 200-240V
- Power 60W
- 9600 Lumens
- Frequency 50-60Hz
- Power Efficiency:>95%
- Isolated LED driver
- Bleed valve
- Supplied incl. mounting material
- Complies with: LM79-08 and LM 80-08
- Article number VOC-BAR-150-60-X-heavy-duty round / stainless steel

The IP69K rating provides protection against dust ingress, protection against high temperatures and high pressure (water) – making products with this certification ideal for use in conditions where equipment requires careful decontamination. In sectors such as food processing, where hygiene and cleanliness is a priority (HACCP), equipment must be able to withstand not only high pressure but also high temperature. In many industries, where dust and dirt can be a problem, it is important to ensure that dust cannot penetrate into a product's housing and cause failure.

The IP69K rating is the highest possible protection available.
