

TECHNICAL DATA

|                             |                                                              |
|-----------------------------|--------------------------------------------------------------|
| Purpose                     | SAL ø176, SAL ø178K, SAL ø180M                               |
| Class of concrete according | to PN-EN 206 - C30/37 norm                                   |
| Anchor bolts                | hot-dip galvanized                                           |
| Shape                       | square                                                       |
| External surface            | coated with impregnating agent (waterproof bitumen emulsion) |

TABLE OF VARIANTS

| Code   | Symbol | Fasteners | Bolt spacing E [mm] | Thread length C [mm] | Height of threaded anchor ending C [mm] | Dimension AxBxH [mm] | Net weight |
|--------|--------|-----------|---------------------|----------------------|-----------------------------------------|----------------------|------------|
| 311170 | B-70   | 4012      | 300                 | 38                   | 45                                      | 400x410x1200         | 296 kg     |
